

Standard Operating Procedure

Specialty Pharmacy Insight · Outpatient Hospital Program · End-to-End Workflow

DOC ID
SOP-SPI-001

VERSION
2.0

EFFECTIVE
[Date]

CLASSIFICATION
Confidential — Internal Use Only

PURPOSE

Defines the consolidated workflow for the Specialty Pharmacy Insight outpatient hospital program — from physician enrollment through medication fulfillment — establishing controls, ownership, and SLAs for regulatory compliance and timely patient care.

SCOPE

Applies to Compliance Officers, Pharmacy Intake & Fulfillment Staff, Prior Authorization Team, Onboarding Coordinators, Insurance Specialists, Telehealth Schedulers, and all clinical and operational stakeholders participating in the program workflow.

Process Workflow

PHASE 1

Physician Enrollment & Prescription Submission

Compliance / Physician Office

SLA: Same Day

WORKFLOW STEPS

- Physician completes and signs CDTM agreement
- eRx transmitted to Insight Pharmacy via EMR
- Patient demographics & insurance faxed to PA Team

KEY CONTROLS & SAFEGUARDS

Mandatory field validation; auto-confirmation sent
CRM: NPI, license, specialty, EMR system verified
Auto-alert on receipt; monitored fax line as backup

PHASE 2

Pharmacy Intake & Prior Authorization

Pharmacy Intake / PA Team

SLA: 24 – 48 Hours*

WORKFLOW STEPS

- eRx received, logged, and verified in system
- Triage tagging applied: urgent vs. routine
- PA Team coordinates authorization with carrier

KEY CONTROLS & SAFEGUARDS

Patient, drug, and prescriber ID verified per SOP
Daily audit cross-checks log vs. submissions
Escalation triggered if patient unresponsive > 24 hrs

PHASE 3

Telehealth Completion & Approval

Onboarding Team

SLA: 24 Hours

WORKFLOW STEPS

- Telehealth visit scheduled (2–3 daily slots held)
- Visit completion auto-triggers fulfillment notice
- Insurance approval logged in centralized workflow

KEY CONTROLS & SAFEGUARDS

Centralized tracking of eligibility & scheduling
Automatic pharmacy notification upon completion
Approval confirmation timestamped for audit trail

PHASE 4

Medication Fulfillment & Delivery

Pharmacy Fulfillment / QA

SLA: 24 – 48 Hours

WORKFLOW STEPS

- Patient address reconfirmed before dispatch
- Medication packed with temperature controls
- Shipped with signature & delivery confirmation

KEY CONTROLS & SAFEGUARDS

Barcode tracking with automated patient alerts
Cold-chain verification where applicable
Final QA review completed before release

Governance & Compliance

- Weekly cross-functional performance reviews
- Monthly HIPAA and program compliance audits
- All steps timestamped for complete audit trail
- Continuous improvement driven by KPI trending and root-cause analysis
